Dairy School 2017
14 July 2017

To our Dairy School speakers,

The 2017 Dairy School Veterinary Students would like to extend a heartfelt thank you to you and your organisation for the integral part you have played in making this practical rotation a success. Each contribution has brought us better insight into the dairy industry and has helped better our education in this regard.

Last week, we were welcomed with great hospitality onto dairy farms, where we had an informative and valuable experience, enhancing our understanding of the dairy industry. It gave us insight into the day-to-day farming activities and where we as veterinarians might add value. We are thankful that we were given this opportunity to travel to such well-selected farms in order to gain this insight. This week, we have had a vast amount of information readily shared with us. We are grateful for this and the valuable discussions that followed. It was great to integrate what we had seen first-hand on the farm with the theoretical shared with us this week.

All of these contributions were vital in making this year's Dairy School a success. We thank you for valuing our education in the industry by being involved in this initiative and hope that you will continue to be a part of this project in the future.

Thank you once again.

Yours Sincerely,

Jurgens Barnard
